

AUTOMATICALLY BLOCKING MALICIOUS BOTS FOR AMYSGAMES

ABOUT AMYSGAMES

AmysGames Entertainment is a US-based small indie website featuring games, animations, and more!

AmysGames Entertainment is a website where anyone around the world can download fun games, read webcomics, and so much more!

RESULTS

Veracity Web Threat Protection has identified and stopped 31 bots in a few weeks.

9% of web traffic was identified as Malicious Bots looking for vulnerabilities and potential attack points to AmysGames' Website.

"Bots have definitely been lurking on my site for a long time because I've seen them in my statistics before. There was a time when I was trying to block them manually, but there were so many of them that it felt like an impossible feat. I did my best to keep the site itself secure, but there was no way to stop the bots.

I noticed a massive uptick in unusual activity, which is what prompted me to look into Veracity. It's a little alarming to know that bots show up on the daily.

Amy, Founder and CEO at AmysGames Entertainment

"I definitely feel more secure with Veracity's Web Threat Protection. It's nice having it there blocking bots without me having to do anything. It's been great working with Veracity. I hope they can continue improving the security of my site and others.

Amy, Founder and CEO at AmysGames Entertainment
